SMD: Medical Objects

Preparing for NCS/EMG:

1. Bathe or shower on day of testing; remove body oils.
2. Don't use lotion, bath oils or moisturising creams.
3. Wear comfortable, loose-fitting clothes.
4. Bring a list of your normal medications.
5. Please advise the technician if you:
 - a. bruise easily
 - b. have hemophilia
 - c. have a pacemaker/defibrillator
 - d. have a skin infection
 - e. you are on blood thinners (e.g. warfarin, eliquis, dabigatran, rivoraxaban)

Preparing for EEG

1. Eating is permitted prior to your EEG.
2. Avoid caffeine intake prior to your EEG.
3. Please arrive early with clean & dry hair
4. Bring a list of your usual medications.
5. DO NOT use any hair styling products including oils before the test.
6. Continue to take your medications including any anti-seizure medications.
7. Only the patient will be allowed in the room during examination; please arrange daycare for any young children.
8. If you have been instructed to have a sleep-deprived EEG, do not drink or consume anything containing caffeine between mid-night and the time of your test. It is necessary that you achieve only 4-5 hours of sleep and deprive yourself of your normal sleep on the night prior to your procedure.

How to find us:

We are located off Pacific Highway at the intersection of Pacific Highway and Hitchcock Ave, which is not sign posted. Please turn left before Belmont Hotel onto Hitchcock Ave if you are travelling South on Pacific Hwy. If you are travelling North, please call us for instructions. Parking is at the rear of the building. Please arrive no sooner than 15mins before your appt since parking spaces are limited.
